

Recycling Facility Tours

Thank you for your interest in Homewood Disposal's Recycling Facility.

The tour of our recycling facility and transfer station is partially outdoors and does require walking near heavy machinery, so please plan accordingly. *Our facility is not wheelchair or stroller accessible.

For safety purposes, we do request that you wear the appropriate footwear, which includes closed-toe, flat shoes. Guests should not wear flip-flops, sandals, high heels or open toe shoes.

For those groups with children under 18 years old, permission slips with a parent signature must be turned in at the time of the tour for each child. The guest who sets up the tour will be responsible for getting the slips turned in before the tour begins.

Upon your arrival, proceed directly into the main office building. You will be provided with safety gear, which includes vests, glasses, and hard hats. These items must be worn at all times outside of the main office building.

Our facility is a smoke free facility.
